NOTICE

Urgent Security Advisory: Strictly Prohibiting the Sharing of Sensitive Personal and Academic Credentials

It has come to the attention of the college administration that several students are sharing sensitive personal and academic data over unsecured channels, social media, and among peers.

Students are strictly instructed **NOT** to share or publicly post the following credentials:

- Digital Credentials: Student email IDs, portal passwords, and login OTPs.
- Academic Documents: Marksheets, grade cards, and official transcripts.
- Identity & Examination Documents: College ID cards, hall tickets, and admit cards.

Sharing these items compromises your personal security and exposes you to severe risks, including identity theft, unauthorized access to official records, academic impersonation, and cyber fraud.

It is again re-iterated to strictly follow the guidelines as under:

1. Keep Logins Confidential: Never share your college email passwords or portal credentials with anyone, including friends or representatives claiming to be college staff.
2. Protect Official Documents: Do not post images of your ID cards, admit cards, or marksheets on social media platforms or public messaging groups.
3. Report Suspicious Activity: If you suspect unauthorized access to your student portal or email account, change your password immediately and notify the IT Desk/Administration Office.

Any student found compromising institutional security or misuse of another student's credentials will face strict disciplinary action as per college regulations.
