**13.**

**Growth, Structure and Performance of Manufacturing Industries in India**

*Year:*  
*Sponsoring*  
*Agency*  
*Duties:*

1995-1997  
Self

The objective of the research was to analyze the pattern of growth of manufacturing industries at 3 digit level. The patterns of growth analyzed were particularly with respect to output, capital stock and employment. The objective also included the assessment of the structural aspects of the industries taken under consideration. Particularly it aimed at finding out the level of market concentration for the specific industries at the three digit level. Moreover, the study also attempted to find out the casual nexus between structure and performance (measured in terms of ratio of net profit or gross profit). The study covered review of literature on the evidences with regard to growth, structure and the casual nexus between structure and performance. The analyses in the study were based on the estimations from secondary data. Econometric tools were used for inter industry comparison.

**14.**

**Media Studies - Pre Poll, Exit Poll and Post Poll Surveys**

*Year:*  
*Sponsoring*  
*Agency*  
*Duties:*

1995  
CMS

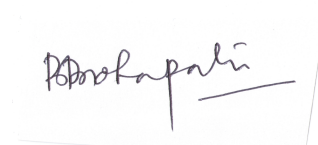

Objective of the Pre Poll, Exit Poll and Post Poll Surveys was to get opinion and preferences of voters on different socio-economic and political that affect their voting behavior. Responsibilities included: Conceptualisation of research design including sampling, drafting the questionnaires, coordinating and supervising the data collection process, analysis of collected data and giving quantitative and qualitative feedback.
