NOTICE

Examination branch has been trying to streamline the process of degree printing so that degrees can be issued to the student on-time. To achieve this goal, it was made mandatory that students must fill each column of the Examination form including name of the parents (Hindi/English) and enrolment number.

The data filled by the students appeared in the admit card and marksheet. There was a clear instruction that the data filled by the students in the examination form will be used for the printing of degrees.

Unfortunately, some of the students ignored the directions and filled wrong information in the exam form and the same appeared in the admit card and marksheet.

All the students are hereby advised to check their marksheet and ensure that all the entries as appeared in the marksheet (Student's Name, Parent's Name both in Hindi and English, Enrolment number) are correct, if not they should get in touch with the concerned college and get it corrected within FIVE days. **Please note corrections, if any, must be sent to the concerned college only.**

It may be noted that the exam branch will not be responsible for the mistakes in the degrees with respect to personal information and reprinting of such degrees will be charged.
