**Subject: Publication of Book on Biodiversity and Climate Change**

Sir,

With reference to the subject cited above, I am glad to inform you that the Conference Committee for Biodiversity and Climate Change is planning to bring out the inaugural issue of the proceedings of the Conference as also other papers in the form of a book titled '*Academic and Activist Perspectives on Biodiversity and Climate Change*'. The editorial board for bringing out this volume is as follows:

- Niraj Kumar Singh (History)
- Pratibha Rai (Business Economics)
- Puneeta Agrawal (Commerce)
- Sangeeta Mittal (English)
- Saumya Shukla (Economics)
- Swami Nandan (Physics)

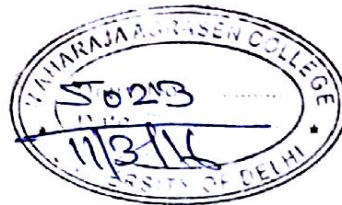

The book is an attempt to put together the discussions held over last four conferences in the college on Biodiversity and Climate Change. We also wish to invite papers on the concerned theme from the academic fraternity at large. Since no budgetary provision was made in the last Conference towards publication, the expenses for the same would be made by way of contribution from amongst the editorial board.

We seek your blessings and patronage in this endeavour.

Thanking you,

Sincerely

*Niraj K Singh*  
Niraj K Singh  
Convener, Conference Committee
