## Message

The preparation and presentation of the annual report is an occasion to review our work in the preceding year, celebrate our successes and introspect on tasks which are yet to be accomplished. Viewed in this light, we have much to rejoice about when we look at the performance of Maharaja Agrasen college, during past one year. No doubt, the high point of our achievements was the celebration of the silver jubilee of the college in September, 2019 in which Shri M Venkaiah Naidu, the hon'ble Vice President of India, was the distinguished Chief Guest. Completion of 25 years of commitment and dedication along with the all-round excellence of students and faculty members of the college were at the core of these celebrations. Completion of a number of innovation projects, wide-ranging deliberations through conferences and seminars and empowerment of faculty members through various faculty development programmes and other activities/participations, have been some of the other praiseworthy aspects of 2019-20.

I particularly congratulate our students for their hard work and participation in extra-curricular activities, the faculty members for their untiring mentoring and the non-teaching staff of the college for the efficient administration. While this report is an important step to enhance the presence of the college in the academic sphere at large, we must never forget that our achievements are not an end but only a stepping stone to something higher.

We have “miles to go” and surely, “we shall overcome” all challenges in our way.

Wishing the college and all of you a wonderful future!

## Message

It gives me immense pleasure to present the Annual Report of Maharaja Agrasen College for the academic year 2019-20. This year was special in many ways, be it the visit of Hon'ble Vice President of India, Shri M. Venkaiah Naidu in the concluding ceremony of the Silver Jubilee Celebrations, be it the longest ever lockdown due to global pandemic or be it the sudden switching over from classroom to digital mode of teaching. I am proud to acknowledge that Maharaja Agrasen College fraternity has converted these challenges into opportunities. The Annual Report of 2019-20 speaks volume about the academic achievements, research, seminars, conferences and workshops, educational journeys, sports activities, college publications, cultural activities and social and outreach activities of the students and staff.

Continuing its journey of success and achievements, Maharaja Agrasen College retained its ranking in National Institutional Ranking Framework, 2019 and India Today-A.C Nielsen Survey in the current academic session. All the 10 courses, 15 departments and 20 different Committees have organized several activities. Majority of the faculty members have contributed in many ways by publishing more than 50 research papers, chapters, articles in Research Journals and books. Around 92 faculty members and 9 administrative staff participated in training, workshops, international and national academic conferences.

The extracurricular and sports activities are meant for all-round development of student's personality. Inculcating creativity, managerial and leadership skills could be realized by providing them opportunities to organize and participate in these useful activities throughout the year. I am sure that Maharaja Agrasen College will scale new heights in future with the collaborative efforts of students and staff under the able guidance of the Governing Body of the College.

## NCWEB (Non-Collegiate Women's Education Board)

Education is an inexorable and indispensable part of life that in the long run adds to the making of a wholesome nation. It is by educating the girls in our community that countries become prosperous and affluent. It is one of the best investments her family, community, and country can make. Educating a girl enhances her ability to take important decisions for her personal development, which in turn spearheads the path to her empowerment. Women's empowerment is essential for economic development, growth, and poverty reduction not only because of the income it generates, but also to break the vicious cycle of poverty. In this context, the 71st Republic Day parade showcased an astounding display of 'Nari Shakti'. Captain Tania Shergill, a fourth generation Army officer, led an all-men marching contingent of the Corps of Signals at the Republic Day parade, thus becoming the first woman Parade Adjutant in the history of the Army Day function.

It is with this vision that Delhi University started the Non Collegiate Women's Education Board (NCWEB). This is an endeavour to contribute to Higher Education not only by enabling girl students to get a degree in relevant subjects but also inculcating in them the ability to think creatively and to possess good communication skills. Programs such as the BalikaSamridhhiYojana, BetiBachaoBetiPadhao and schemes like the Dhanalakshmi Scheme would only be successful when institutes such as NCWEB blossom in full capacity. The eligibility criteria permit only women students residing in the National Capital Territory of Delhi to enrol themselves as students of this institution. NCWEB is a unique system with lectures on weekends, leaving students with five working days to follow their dream. In this neo-age of relentless competitions, classroom crunch, gender discrimination, NCWEB comes as an opportune initiative and a most satisfactory way to attain a degree from the prestigious Delhi University.

The academic year of NCWEB Center of Maharaja Agrasen College started in September 2019, with the orientation session addressed by the Teacher in Charge, Dr Sanjeev Tiwari. During his interactive address, the students were familiarised with the various aspects of NCWEB and the intricacies of the workplace environment. However there was a change of Teacher in Charge with Dr Sanjeev Tiwari taking over the charge of the officiating principal of Maharaja Agrasen College. The charge of the Teacher in Charge was handed over to Ms Puneeta Agarwal from November 1, 2019. Following this, an interactive student meet was held on November 17, 2019 under the supervision of Ms Puneeta Agarwal. The student meet was aimed to discuss the problems faced by the students, their suggestions and feedback for the upcoming programmes to be held during the academic session. To commemorate the adoption of the constitution of India, the Constitution Day was celebrated at the centre on November 26, 2019 with Professor C.P. Singh, University School of Mass Communication being the invited Chief Guest for the occasion.

The NCWEB Center of Maharaja Agrasen College also celebrated the National Youth Day on January 12, 2020 to mark the 157th birth anniversary of Swami Vivekananda. Miss Nayana Vinay Sahastrabuddi, who was the esteemed guest of honour, encouraged the students to contribute towards nation building by taking inspiration from the teachings of Swami Vivekananda. By stressing on perseverance, purity and patience, the TIC, Ms Puneeta Agarwal further encouraged the students to follow the ideals of Swami Vivekananda, whom she said was not a person, but an idea in itself. The TIC further announced the proposal of the bilingual emagazine of the NCWEB Center of Maharaja Agrasen College, which would give an opportunity to the students to tap their potentials and voice their creative thoughts.

Keeping up with the zeal of the academic year that started off with a vision to empower women and make them partners in the nation building process, the NCWEB centre screened a documentary, 'Ladies First' on the occasion of International Women's Day 2020. Based on the life of archer Deepika Kumari, the 40-minute Indian documentary served as an inspiration for the students. In order to impart practical knowledge to the students, the centre also organised two workshops. The workshop on Business Mathematics was organised by Dr Arun Julka who talked about the fundamentals of Business Mathematics. The workshop on Sustainable Fashions was organised by Ms Kanika Agarwal, a doctoral research scholar working on Sustainable Fashion Consumption and Disposal amongst Youth. The workshop helped in creating an awareness among the students and helped them understand their responsibilities as consumers.

### Academic Activities:

At present the enrolment in Under Graduate courses at the Maharaja Agrasen College Centre of NCWEB is approximately 1304, of which around 149 and 329 are in BCOM and BA (P) respectively. With around 44 teaching staff and a dozen non-teaching staff, the center has successfully completed the 52 days class schedule for the academic session 2018-19. The number and percentage of successful students in annual exams-2019 of the University is also encouraging. This year too showed encouraging results. Out of 175 students of B Com, 162

students were successful in the exam. The percentage of successful students is 92.57% which is quite encouraging. Out of 275 students who appeared in BA (P) exam, 225 students achieved success and the pass percentage being 81.82% is equally healthy and motivating for the center.

#### **Extra-Curricular Activities:**

Apart from academics the teaching centre also encourages its students to participate in extra-curricular activities, which carry an equal importance in a student's holistic development. With this in mind, an annual sports and cultural competition Spardha-2020 was organized at NCWEB, Maharaja Agrasen College Centre on February 23, 2020. The honoured guest for the occasion was Dr Suman Chahar, the Chairperson of International Academy of Environmental Sanitation. Dr R.K Tewatia, the Vice Chancellor of CLR University, Jhunjhunu, Rajasthan was the eminent guest for the occasion. The centre organized cultural events such as painting, creative writing, self-created poem, slogan writing, mehendi, rangoli, solo singing, and group singing as part of the Spardha2020spirit. The students participated in these activities in great zeal in large numbers and as well as the skills they showcased were quite reassuring. The Spardha 2020also included sports activities such as the 100-meter sprint, 4x100 meter relay race, long jump, high jump, 400-meter race and tug of war in which the students participated enthusiastically. One of the highlights of the event was the variety of food stalls that were put up by the students with their homemade delicacies. The annual day scheduled in March 2020 has been deferred due to the nation-wide lockdown from March 15, 2020 owing to the Covid 19 pandemic.

However in keeping with the pace during the uncertain pandemic times, the NCWEB Center of Maharaja Agrasen College has been successful in continuing the classes through online teaching. Various online platforms such as Google Classrooms, Google Meet, WhatsApp Groups and Zoom are being employed by the faculty for the online teaching learning experience. The centre will also be organising its first three day E- Festival, Spardha 2020on May 13-15, 2020. The centrehas also decided the formation of alumni group of the NCWEB students for which the reaching out to the alumni has already begun. The NCWEB Center of the college is thus attempting its best to provide every possible opportunity to the students in order to enhance their untapped potentials, unravel the undiscovered possibilities and at the same time prepare them to make their vocational choices and contribute in the process of nation building. The final aim of education is holistic development, which remains the encouraging focus of the teaching centre.
